C. Part I Neighborhood Results

D. Part II Community Results

Purpose

The purpose of the 1973 Community Outlook Survey was to provide the Town Board of West Terre Haute with a rationale and factual account of the attitudes of their constituents concerning community affairs and neighborhood needs. As such, the survey results can be utilized by the governing body in helping them make sound, responsible and fair decisions that are responsive to their electorates desires and needs.

The survey also can provide the communitys governing body with information needed in order to acquire state and federal funds to improve various aspects of the community and to help conserve local tax dollars.

Besides being of assistance to the Town Board the response to the survey may be utilized by the many local organizations in their attempt to maintain and improve the community. It provides a common set of objectives that these public organizations may jointly work toward achieving.

In conclusion, this report is a tool that can be used to guide those interested in West Terre Haute in a direction which is consistent with the needs, hopes, and desires of it's citizens.

Procedure

The following report represents the results of the West Terre Haute Community Outlook Survey. The questionnaire survey was conducted during the month of April, 1973 under the endorsement of local agencies and organizations. As a geographical base for the survey the community was divided into nine neighborhood areas. A questionnaire was hand distributed, on a neighborhood basis, to each residence in each neighborhood by citizens of West Terre Haute. Return or "drop boxes" were placed at fifteen locations throughout the community for the collection of completed questionnaires. Following the collection of the questionnaires, they were tabulated by neighborhood and later analized.

The response to the questionnaires were recorded by neighborhood. A consolidation of these neighborhood results formed the overall community outlook findings.

The survey's findings are presented in this report. These findings represent the attitude of approximately one out of every three households in West Terre Haute, which can be considered as an extremely successful and representative indicator of public attitude.

Nice town but we need to clean up and repair our streets and alleys and tear down old buildings.

Would like for results of this survey to be published and maybe it would wake people up to the poor conditions of our town.

We need a sewer system, zoning ordinance, building code and ordinances that will be enforced!

We have a ball park for the boys but need recreation for the girls. Old North School would be ideal place. Don't understand why people won't try and get rid of Tractor Sales.

Ordinance to eliminate junk cars from streets, and vacant lots, either upgrade or remove old buildings. Beautify streets and town and lower tax rate to attract new businesses.

We should have a Senior Citizen Center.

Something done about water hole at 9th and Nat'l.

Start issuing traffic tickets and crack down on speeders and clean up hill of Aluminum Ore at train derailment site. Use area behind ball park for bicycles not motorcycles.

Can't the wrecked cars, trash and etc. be removed from behind the Standard station? Terrible water holes in streets.

Improve upkeep of private property and have law to make people burn their trash at certain times of day and not at night.

Litter baskets placed along streets, rusty trash containers spoil the look of alleys and yards.

The community needs a sewer, drainage system, repaired streets, curbings, new street lights, and better communication equipment for police.

More volunteers for special services such as, clean up, fix up, paint up, and also someone from Humane Society to check mistreatment of animals.

Police enforcement of stop signs. Bring north end and south end of town together through recreation.

The fire plug in front of our house has not been flushed in the 11 years that we have lived here.

I am concerned about water works dept. and their not reading meters, not repairing meters, and fire hydrants not being flushed.

Place between 7th and 8th - Grims Rec, should be looked into.

More recreation for young children, teens. People should keep property clean and free of litter.

No. 9th to narrow for parking on both sides.

Clean-up and become a Pride Town

Too high taxes for too little in return

Get rid of junk in yards

WTH used to be nice, but is going down, down

Keep paper from blowing from bins around drive-ins

Early mosquito control instead of delayed fogging

No property protection or building codes

Bicycle training

Better law enforcement

Investigate Grimes Rec.

Tear down old buildings

Black top all streets

Federal housing for senior citizens

Stop light at 9th and National for IGA customers

Too many trailors

Need sidewalks from 8th to 5th for walkers at West Vigo Elementary School

Would like license branch in WTH for Suger Creek Township people
